

## WBV HOA Board of Directors application

My wife, Jo Ann, and I have been full time residents for over 16 years and have been active participants in activities here.

In my two terms on the WBV BOD I have diligently worked to represent all of our residents and not any single point of view. As President in 2020 to 2021 and Vice President this past year I have endeavored to lead us forward while maintaining our fiscal integrity. I have also served as Director of Landscape and Facilities and have worked hard to improve our facilities so as to keep us relevant to new home buyers and useful to current residents.

**Our objective as Board members should be to produce progressive thinking and community improvements, maintain our facilities and property in top condition and continue to be fiscally responsible.**

I have had valuable experience serving on the WBV Golf Club Board of Directors as Greens & Grounds Director for 2 years and President for 4 years. I was elected to the Elwood NY Board of Education serving for 11 years; 6 years as President and being reelected 4 times. Serving in these positions gave me experience working in a group to achieve positive results.

Most of all, these positions taught me the importance of listening to all involved first and then, speaking.

**I would very much appreciate your support.**
